Jury deliberates five hours

Gas chamber awaits Christopher Moore

By CAROLE LANGE

Several jurors were visibly upset as they left Hancock County Circuit Court late Thursday after returning a guilty verdict in the criminal murder trial of 23-year-old Pascagoula defendant Christopher Alvin Moore.

Spectators cried "oh no" and began sobbing when Judge J. Rubie Griffin sentenced Moore to die in the gas chamber Dec. 12 for the murder of 29-

year-old white Pascagoula school teacher Irene Hoffman.

The all-white jury deliberated almost five hours and returned the guilty verdict at 3:40 p.m. They entered the courtroom solemn-faced and two women jurors appeared to have been crying.

Moore listened unemotionally, his arms folded across his stomach, as Griffin handed down the mandatory

death sentence. As an automatic procedure under the State's capital punishment law, Griffin said he would order a stay of execution when the case is appealed to the Mississippi Supreme Court.

Friday afternoon, defense attorneys Andrew Gambrell and Kennie E. Middleton presented their motion for a new trial which Griffin explained was "a procedural matter before an appeal

could be granted."

The motion cited "bias, passion, and prejudice" in the minds of the jury; the court's failure to suppress evidence, namely a fingerprint and hair samples; and the court's failure to prohibit photographs depicting "gory stab wounds" which would "inflame the jurors" as three of the eight reasons for a new trial.

The courtroom scene Friday was vastly different from that of Thursday afternoon. Sobs and cries of "oh no" were heard Thursday when the guilty verdict was delivered and the sentence pronounced. As the spectators filed out of the courtroom, many were crying and swooning and shouting Moore's innocence.

During the reading of the motion Friday, the smaller, all black crowd sat quietly not commenting on the procedure.

There were no obvious security precautions in Friday's courtroom other than the two guards who remained with Moore throughout the trial. However, spectators who came to hear the verdict Thursday had their pockets and purses searched and were checked for weapons by a metal detector. There were reports that a bomb would go off in the courthouse and Jackson County Asst. District Attorney Joe Colingo said his life had been threatened.

Immediately after the sentencing, Gambrell turned to the predominantly black audience and asked friends of the defendant to "be strong and stand with his family." He urged them to "get control" and "not jeopardize his chances in future legal proceedings."

Southern Christian Leadership Conference (SCLC) president Rev. Ralph Abernathy sat with Moore's family awaiting the jury verdict. His organization has been involved in protests of the trial in Jackson County.

Carmichael woos Hancock voters with straight talk campaign stops

A restoration of confidence in government is the aim of Gil Carmichael, Republican candidate for Governor of the State of Mississippi. Speaking at three "people's press conferences" on Thursday in Hancock County, the gubernatorial hopeful told his audiences that today's politicians were being called on "...to tell it like it is, and talk straight."

"I am running an open campaign," the future governor said, "speaking just as I feel and think."

Carmichael said the entire United States is looking at Mississippi with the realization that history is in the making. The candidate was referring to the fact that if elected he would be the state's first republican governor since

Reconstruction days.

The governor said his administration would consist of the "best people for the job" and would include appointees from the Republican and Democratic parties, as well as qualified independents.

After sketching his background to the approximately 150 people gathered at Winn-Dixie Shopping Center, Carmichael said his issues include compulsory education at least to the grade eight level; a new constitution to replace the present 1890 constitution which has been amended 65 times; a definite law and order program, in which he pledges to assist police to upgrade their profession; a \$100 million tourist promotion program to keep

tourists in the state.

On the educational issue Carmichael said that at one time people almost had to leave the state in order to earn a decent living.

"Now the opportunities exist within Mississippi but it is necessary for our young people to have the required education," he said.

"It is also my intention to ask for a convention to write a new constitution," Carmichael added. In the original document, the people of the state reserved the right to re-write the constitution as required.

"Thomas Jefferson said the people ought to look at their constitution every 20 years," Carmichael told his audience.

Gil Carmichael, Republican candidate for governor, speaks out on the issues at one of three People's Press Conferences recently held in Hancock County. An estimated crowd of 150

people heard the candidate speak at Winn-Dixie Shopping Center in Bay St. Louis. He also addressed crowds at Old Shopping Center in Waveland and at the Kfm Post Office.

Two receive light sentences after Griffin lectures defendants

A 25-year-old Bay St. Louis man was sentenced to four years in the state penitentiary at Parchman Thursday after pleading guilty to 13 indictments ranging from simple burglary to assault and battery with intent to kill.

Two years of the sentence were suspended by Judge J. Rubie Griffin with the recommendation that defendant Michael Schwall be entered into the University of Mississippi Medical Center at Jackson for treatment of mental disorders.

Griffin, in sentencing Schwall, said he did not see any purpose in inflicting a lengthy confinement at Parchman upon the defendant without giving him the medical attention that he obviously needed.

The indictments against Schwall, including three for grand larceny, two for assault and battery with intent to kill, one for attempted burglary, four for burglary and larceny, and one each for burglary and larceny of a dwelling, burglary of a dwelling, and burglary, were returned by a grand jury in October, 1973.

Schwall, who pleaded not guilty to all 13 indictments originally, was ordered to the State Hospital at Whitfield for psychiatric evaluation in February of 1974 where he was contained until January of this year when he was adjudged competent to stand trial by Whitfield doctors.

Assistant district attorney Joe Sam Owen and Schwall's attorney Howard McDonnell concurred Thursday, however, with Whitfield medical reports that Schwall was still suffering from a "super-imposed psychosis" with some mental retardation and would not benefit from punitive incarceration.

Schwall was placed on three years probation with a warning by Griffin to "behave himself" after he had received his medical treatment.

In a second case, Charles James was dismissed as a defendant in an indictment charging him and co-defendant Reginald E. Singleton with possession of a controlled substance, namely 16 pounds of marijuana. On a plea of guilty, Griffin sentenced Singleton to pay a \$300 fine.

Spectators entering Hancock County Circuit Court Thursday were searched for guns and other weapons by a metal detector. Pockets and purses

were also searched as security around the courthouse tightened due to bomb scares and threats on Jackson County Asst. District Attorney Joe Colingo.

Mississippi Power cited for efforts

The Mississippi Chapter of the Soil Conservation Society of America has named Mississippi Power Company as the recipient of its 1974 National Award for conservation efforts.

Jack Whitted of Jackson, president of the Mississippi state chapter, announced the award winner during the Soil Conservation Society's annual meeting in Jackson.

The Industrial Award recognizes the Gulfport-based electric utility for promotion of conservation and land management along the utility's 2,000 miles of transmission line right-of-way located in 22 southeast Mississippi counties.

Mississippi Power Company has always been interested in conservation, Whitted said upon accepting the award, "and we are encouraged by the success of this program."

Other awards were presented by the Society to E. L. Davis of Meridian for planning good land use; Fred Taylor of Oxford for promoting the art and science of good land use; and the Baldwin Boy Scout troop for promoting conservation.

Joe Eary, Soil Conservation Service forester in Jackson, received the International Paper Company award as outstanding professional agricultural worker in Mississippi.

Seeking votes

"Kick a baby, get a vote" may be a slogan that's not heard in other areas, but hand shaking still remains a popular form of vote seeking. Here Republican gubernatorial candidate Bill Carroll does just that with the voters at a People's Press Conference in Winn-Dixie Shopping Center.

IT HAS BEEN IMPERMISSIBLE FOR ME TO SEE EACH OF YOU BEFORE THIS ELECTION, AND I APOLOGIZE FOR THAT. REMEMBER ME ELECTION DAY. PLEASE GO TO THE POLLS AND VOTE. THIS COULD BE THE MOST IMPORTANT VOTE OF YOUR LIFE. RECALLING IN YOUR CHOICE OF CANDIDATES.

(Pd. Pol. Adv.)

In the past several weeks I have given you the following information in my ads: education, business experience, civic activities and platform. I sincerely hope each voter in Beat 1 will weigh out qualifications before the Nov. 4th election. Our future progress for roads, schools, hospitals, jobs, and the communities depend on your vote.

I would like to clarify several untrue rumors that I have encountered in the past several weeks, such as, "My own Mother wouldn't vote for me". I am sorry to say that my mother, Mrs. Lucy Cuevas Courge has been deceased for 33 years. My father, A. Gordon Courge, former school board member and employee of L&N Railroad, is also deceased. Another was that "When I served on the Port & Harbor commission I tried to raise our taxes". Well, most everyone knows that the commission has no authority to do this. We ask the Board of Supervisors for an increase in our operating budget. It has been said that "I am being run by other political factions". This is also untrue! I have initiated and conducted my own campaign. If you have any questions, please contact me.

I would like to take this opportunity to thank the many people who have worked in my behalf. I have enjoyed the privilege of meeting many fine people and received great hospitality during my campaign. I am looking forward to serving you and meeting those that I have missed while campaigning.

Many Thanks

How to Develop Winning Ideas!

Copyright 1975

"How can I develop winning ideas?"

That's a question I'm often asked during "Creative Thinking & Innovation" Seminars I conduct throughout the free world.

And, here's my answer...

You can discover, within yourself, fresh, inventive ideas... they can be converted into money and improve your position in life.

Having an ability to foresee human needs is the first step.

The list of unfulfilled human wants is endless. The key to recognizing a want and finding the way to fulfill it depends on staying ever alert and asking yourself questions like these:

What costs too much? What is too complicated? What is a waste of time? What takes too long to do?

Thoughtful answers will soon give you a long list of human needs. And, once you carefully analyze those needs, you'll come up with original ideas.

Here's an example from my own experience:

Some years ago I saw my mother trying to open a keyless, vacuum-sealed can. I tried to help her and failed miserably after using pliers, a screwdriver and a hammer.

Right then an idea jumped into my mind:

Why not invent an easy-to-use opener?

With the help of others I created and now own the U.S. and free world patents for the "Master Key" Vacuum Can, Jar and Sardine Can Opener. This simple product is like a large key. It has a pointed end which solves other frustrating tasks, too. It will pry off bottle tops and is used to spear olives, cherries or pickles in preparing dishes.

Thousands of these "Master Keys" have been sold... and it is the result of a simple idea that could be yours.

The world needs, for instance, a new kind of eraser; a new kind of writing instrument; and an economical way to reclaim silver. It also needs a new way to shave; a more efficient small engine; a personal-size flying machine; or a built-in unit that will automatically clean your car, inside and out, as you drive it.

George Borg, millionaire inventor of the automobile clutch, the paint roller, imitation fur and many other creations, summed up his idea-getting philosophy thus:

"I'd always been a tinkering man. In the first phase of my life I tinkered just for the heck of it. In the second phase, I decided I might just as well be a rich tinkering man. So I tinkered on things that could make me money. It turned out to be as much fun as the first phase."

Perhaps you, too, can make a lot of money—and enjoy yourself while doing it.

Here are some specific ways that can help you come up with original ideas:

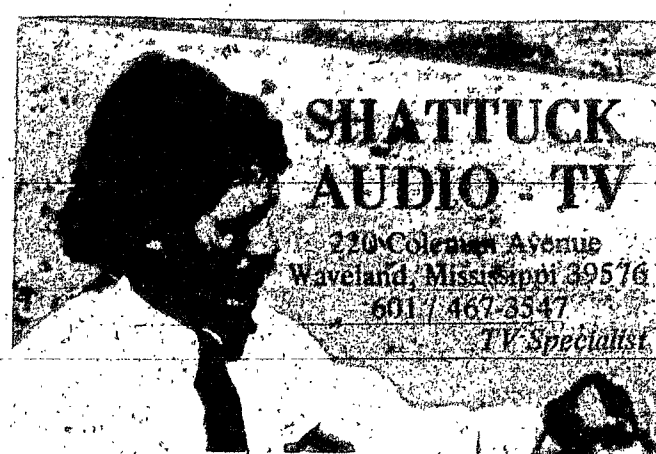

- Read widely, especially hobby books and those books that illustrate the imaginative development of others.
- Listen carefully to others.
- Build idea files on a regular basis. If you have the germ of an idea, file it in a notebook. Record ideas as soon as they occur.
- Enthusiastically work with those around you in assembling ideas; tap their talents.
- When you are irritated by something, try to improve it creatively.
- Keep an open mind at all times—don't be restricted by tradition.
- Take time to be inquisitive. Ask lots of questions.
- Remember, nothing is perfect. Whatever it is, it can be bettered.
- Develop a sensitivity, or a more acute awareness, of other potential uses of something that is already serving a need.
- Talk to people in fields outside your usual circle. Search out ideas and relationships.
- Maintain an ever-widening, universal interest in anything and everything.

On Oct. 28 the new federal credit law, a landmark law for American women, went into effect.

This new piece of legislation makes it illegal for banks, stores and other lending institutions to deny or terminate credit on the basis of sex or marital status.

Under the law, a creditor has the right to ask a female if she is married, single or separated at the time she applies for a loan. The creditor cannot, however, legally ask the woman if she is widowed or divorced, and in some states such as Massachusetts, creditors are prohibited from asking any questions at all concerning marital status if the woman is applying for individual credit.

The law also forbids creditors from questioning women applicants about their child-bearing plans and method of birth control.

If a creditor determines that a woman applicant is a good

credit risk, she will not be required to have her husband co-sign and guarantee her purchases under provisions of the new law. But if her credit application is rejected, the applicant can require the creditor to explain why in writing.

The federal credit law includes some big boons for men too.

It has been very common for lending institutions to ignore all or a portion of the wife's income when a married couple applies for a mortgage loan. Obviously, this discriminatory tradition cuts back sharply on the purchasing power of many married men. Under the new law, this practice is illegal.

If you are discriminated against under provisions of the federal credit law, you should file a complaint with the proper authority in your state and with the Federal Reserve Board, Washington, D.C. 20551. You may also sue the guilty creditor.

The 1975 homecoming of Coast Episcopal High School, a New Orleans Academy, was a success in everything but the score which saw the Raiders on the scoreboard in a 15-0 score.

Despite the score, Coast students had a good time and the game was marked by the presence of Queen Jeannie McClelland during halftime.

The Raiders were hampered by a few injuries after quarter. The game was a close one, but the Raiders were able to make it the game.

Rebels hold for victory

George County found an unexpected first up Bay St. Louis squad Friday night and managed to extend its perfect Gulf Coast conference streak to 7-0 with a 14-0 victory over the Rebels.

George County tailback Mark McLendon did the job for the Rebels, rushing for 111 yards and two touchdowns. McLendon and George County quarterback Dave Sellers combined for most of the Rebels yardage. Sellers ran for 83 yards and led the Rebels offense to a total of 268 yards against the Tigers.

McLendon scored the Rebels first touchdown in the first quarter on a one-yard run which capped a 64-yard drive covering 12 plays. The PAT by Rusty Martin gave George County a 7-0 lead.

The Rebels earned a 14-0 lead into the second half after Sellers went up the middle for 43 yards to the Bay St. Louis line. McLendon ran it over for the Rebels' second score. Martin again scored the PAT.

Bay High got on the score board in the third quarter on a 36-yard pass from quarterback Bill Ginn to tailback Chris Johnson. Ginn, who tied with David Bay for the two-point conversion.

Gulfview kicked off to Pearlman, who again failed to move the ball and Gulfview took over. Bo Smith took a handoff from Seay and scored the Bulldogs second TD. On a quarterback sneak, Russell Seay scored the PAT. The half ended 10-0 Gulfview.

In third quarter action, Pearlman again failed to score after fumbling the ball and Gulfview recovered. Ole Miss, LSU share national tv in SEC game-of-the-week Saturday

The last Rebel victory was by 1953 in the 1953 season in Jackson. Since the Tigers have dominated the SEC in the last decade, the Rebels have been relegated to the role of the underdog. In the 1975 season, the Rebels have been relegated to the role of the underdog. In the 1975 season, the Rebels have been relegated to the role of the underdog.

17-16 victory of '73, plus the fact they had never won a game in the SEC since 1953.

Ole Miss got out of the start in the Rebel-Tiger TV game, scoring at 9:12 in the first quarter. LSU scored at 10:00 in a tight game.

game, the Rebels scored at 37:3 in the 1973 skirmish in Baton Rouge.

An eventful game, however, when Stan Hingman, cutting across from midfield, caught up with Tiger sprinter Joe Labruzzo just inside the Rebel 1 and threw him out of bounds.

And had the 1970 game been played as scheduled, on Halloween night, Manning and the Rebels and that season's Tiger undoubtedly would have put together another classic duel.

As it was, in a 24-13 victory over Houston, Nov. 7, Manning broke his left wrist starting the second half and attempted to face the Tigers with his arm encased in a leather sleeve. Out of con-

dition, unable to hand off, he could contribute little to the Rebel cause.

Miss teams have appeared in 34 televised games including appearances in 17 bowl games. The Rebel record is 17-15-2, LSU dates its TV history back to the 1959 Sugar Bowl game. Its overall record is 16-13-3 in 32 TV games.

Pirates' defense as much as the Rebels' offense that led the Pirates to a 24-0 shutout of the St. Stanislaus Rockchewers in the Pascagoula River Conference championship game.

With 4:36 on the clock in the second period, quarterback Aaron Swannier connected with wide receiver Darrell Lang for a 15 yard pass that Lang stretched to a 44 yard touchdown with broken field running, giving the Pirates a 14-0 halftime lead.

quarter, the Pirates climaxed a 93-yard drive with an 18-yard field goal to increase the score to 17-0.

With 55 seconds to play in the game the Pirates added another touchdown for good measure capping another long drive, this one covering 92 yards, with a two yard keeper by Swannier.

Mike Graber's pass was picked off in the end zone to kill the Rock's only scoring threat in the final quarter. Stanislaus will host East Central next Friday, Nov. 7 in its homecoming while Pass will travel to Long Beach for a match with the Bearcats.

Family court members attend national training

Youth Services supervisor Sandra Dougan of Pass Christian is among members of the Harrison County Family Court staff attending the first regional session of the national training program at the University of Ala. this week.

Other staff members at the seminar include Bette Martin, volunteer coordinator, and Marion Seal, foster care

worker. Judge Keith Leenhouts, director of Volunteers in Probation, a division of the National Council on Crime and Delinquency, is featured speaker.

The University of Alabama School of Social Work is

sponsoring the three-day session to encourage institutions of higher learning to offer courses dealing with the utilization of volunteers in criminal justice, and to provide volunteer programs with effective training techniques.

Golden Pumpkin wins honors

Gloria Forstall, dressed as the Golden Pumpkin, won first place costume honors Thursday at the Diamondhead Women's Golf Association Halloween Tournament.

Second place costume went to Ida Mae Snow for her rendition of Chief Ugly Feet. Low gross was captured by Joycelyn Tresch, and low net by Char Hanson.

A general membership meeting will be held on Thursday, Nov. 6 at the Pro Shop.

Births

Mr. and Mrs. Ray Charles Ladner of Lakeshore announce the birth of their first child, a son, Ray Charles Jr., Oct. 28 at Gulfport Memorial Hospital. The infant weighed six pounds one ounce.

Mrs. Ladner is the former Karen Poolson, daughter of Mrs. Myrtle Poolson of Bay St. Louis and the late Edward Poolson.

Paternal grandparents are Mr. and Mrs. Wesley Ladner of Lakeshore.

Penny Party termed success

The efforts of interested, fun-loving parents turned this year's P.T.O. Halloween Penny Party into a "thrilling" success for Our Lady of the Gulf. The school playground, strewn with booths festively decorated with ghost, goblins, skeletons and witches, was the setting for the shoulder to shoulder crowd of students, parents, and a spook or two, that came to eat, buy and have fun.

From the smiling faces and the total on the cash register, the 1975 Penny Party accomplished its purpose to provide fun for the kids and funds for the P.T.O. school service projects.

Mrs. James Thriffley, Halloween Raffle Chairman, announced that Kim Tabory won the Stereo Tape Deck and Record Player. Students winning prizes for their selling raffle tickets were: Linda Scianna, second grade; Angel Ambrose, first runner-up, fifth grade; Nikki Shubert second runner-up, kindergarten. Mrs. Charles Scianna, mother of the leading ticket seller, will also win a special prize. Divisional winners were: Buffy Jaquillard, kindergarten; Allen Harrell, first grade; Ronnie Artigues, fourth grade; and James Carter, sixth grade. Mrs. John McKenna's first grade led the school in total sales winning a special prize for their teacher.

September taxes

reflect increase

Business is good on the Mississippi Gulf Coast as reflected by the Mississippi State Tax Commission in Jackson. All cities showed increases in September of this year compared with September of 1974.

Gulfport was up 3 percent, Long Beach up 3 three percent, Pascagoula up 5 percent, Ocean Springs up 12 percent, Biloxi up 12 percent, Bay St. Louis up 16 percent, Pass Christian up 38 percent, and Waveland up 52 percent.

For the months of July, August, and September of this year, compared with the corresponding period of last year, the combined sales of the eight Gulf Coast cities were up 6.2 percent.

Local musicians

playing in Ohio

Members of "Seabreeze" band, composed of local musicians Mike Horne, Danny Pernicaro, Cheryl McCullough, and Bennie Sylvester, are presently playing an engagement at the Defiance, Ohio, Holiday Inn.

The group formerly performed on the Gulf Coast under the name "Corruption."

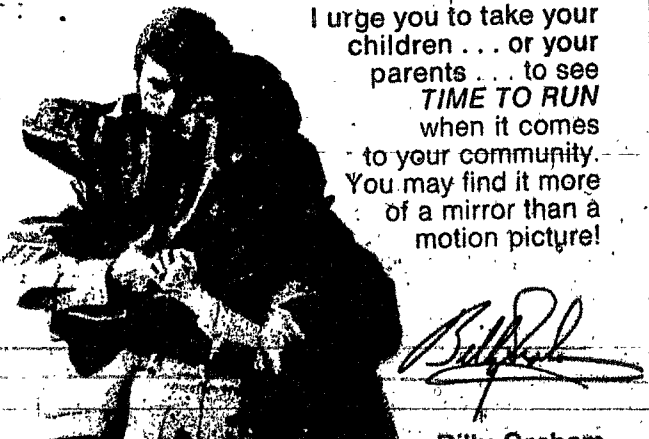

Tourists in Papeete, Tahiti can pick their own fresh fruit from the trees in the landscaped courtyard of the new Holiday Inn there.

BILLY GRAHAM says about the new motion picture "Time to Run"...

There is no doubt that today we see the family unit being attacked from every side, torn apart and fragmented. *TIME TO RUN* is a motion picture about a family, about listening, about the silences between people, the unspoken moments, and the moments of anger that don't really accomplish anything. *TIME TO RUN* openly offers the reality of Jesus Christ as an answer to the human dilemma.

I feel that thousands of people will see a part of themselves in the film. Hopefully, families seeing it will be brought closer together in real understanding and communication.

I urge you to take your children... or your parents... to see *TIME TO RUN* when it comes to your community. You may find it more of a mirror than a motion picture!

ELECT TERRELL (TERRY) RANDOLPH SUPERINTENDENT OF EDUCATION

HANCOCK COUNTY

Thanks again for your support in selecting me as your Democratic nominee to the office of Superintendent of Education. Now we are faced with another election on November 4th to finalize this nomination. The people of Hancock County gave me an unquestionable majority in the August Democratic Primary, and I ask for your continued support in the General Election on November 4th.

During the past few months of my campaign I have met with a great many of our citizens in each of our county communities. The voters reflected their acceptance of my outline to upgrade the educational institutions of our county. My specific goals as outlined in August are as follows:

TOP PRIORITY

- SPECIALIZED READING PROGRAM
- SPECIAL EDUCATION
- EXPANDED CURRICULUM
- BUILDING TRADES

HIGH PRIORITY

- A congenial and honest working relationship with the Hancock County School Board.
- A professional working relation between the superintendent's office and the many organizations of the county.
- A well-rounded athletic program that will include major and minor sports.
- Beautifying our school campuses and current buildings.
- Upgrading the school libraries.
- Federal Aid for our schools that we so desperately need to keep up with today's industrialized society.

I ask you to elect a superintendent that will be in constant touch with our schools and work towards bringing pride to our public school system. A superintendent that will bring all communities in our county closer together for the betterment of our schools. A superintendent that will be close to the children and their needs. A superintendent that is qualified, young and aggressive.

The recent announcement of the Naval Oceanography to locate in the county will give us additional aid to improve and add to our present facilities and Special Federal Aid Funds that would enable us to build a new high school in the southern end of the county. This influx in population will give our school system the needed funds that we have lacked in the past to support our total school program.

I need your help to make it possible for me to serve you as your Superintendent of Education in the ensuing four years. Thank You!

Respectfully Yours,

TERRELL RANDOLPH

COURREGE ANSWERS

LADNER'S

"MUD SLINGING" POLITICAL AD

Mr. Ladner stated in his political ad last week that I did not present my business experience and work record. This is untrue. In my past ads I did give this information - Three years with L & N Railroad; Eleven years with Tennessee Gas Pipeline Company; Experience in accounting, contracts, maintenance and machinery. Mr. Ladner said he could not afford to go to college. I couldn't either, but I worked my way through and would like to add that I worked since I was in Grammer School.

What business in Mississippi is Mr. Ladner a representative of? He says he presently owns two businesses plus a restaurant and is president of his own corporation. I know he operates the restaurant at the Ramada Inn and owns the building on Highway 90 where his shortlived business of Jerry & Mary's Bar once operated, but he did not say what other businesses he is involved in.

As far as "lack of harmony", he has had four foremen and two Port & Harbor Commissioners in four years, not to mention his "Main Street Gang". This questions his harmony. I resigned from the Port & Harbor Commission so he could appoint his "not exactly cousin" in my place.

Mr. Ladner said he shelled my road; in fact, he did put shells approximately half-way in the road. This was done just prior to the election as were most of the

other shelling and paving he boasts about. Since he wrote last week's ad he came back and patched my road. Maybe next election in four years, if he were to be re-elected, he would drag and clean our drain ditches.

Four Board Members and five School Board Members deemed it necessary to hold a special election for the School Bond Issue. Mr. Ladner did not I would think this issue was important enough for a special election, and I would have endorsed and supported it.

As far as his \$36,000.00 debt when he took office, \$22,000.00 of his debt was GEC money. He just used \$48,700.00 more of this same GEC money to do his shelling just before election, but he is not counting this as part of his present debt. This money plus \$23,000.00 that he recently borrowed makes \$71,700.00 that has to be repaid. Other than GEC Funds he had approximately the same amount of money the previous years as election year. Why did he not shell and black top roads during those years? I do not believe that he can say he invested it in equipment, because Beat one equipment is in poor condition.

I did not intend getting involved in this kind of campaign, but Mr. Ladner tries to tie his opponents in with his so-called "Main Street Gang". I also wish he would identify this so-called "Main Street Gang". I feel like the people should know the correct facts.
